

KOBO Hot Stamping Machines

TC-180 and TC-851

The **KOBO TC-Series** hot stamp machines instantly apply color and metallic effects to painted or unpainted raised ADA compliant photopolymer graphics. No cleanup or chemistry required. These units are heavy duty cast construction. Coil heating element provides level temperature across entire heated area. A vulcanized 70 durometer silicone pad is attached to the heated area to provide level foil transfer to irregular surfaces affected by paint or overall thickness.

TC-851

Operating Specifications

\$5,900.⁰⁰

Hot Plate Size:	12 x 7.6 inch (300 x 200 mm)
Work Table Size:	12.5 x 15 inch (320 x 375 mm)
Maximum Pressure:	5,500 Lbs (2,500 Kg)
Maximum Head Stroke:	1.2-2 inch (30-50 mm)
Maximum Opening (Flat):	7.5 inch (190 mm)
Supply Voltage:	220 volt Single Phase - 15 amps
Foil Controller:	Motor Drive
Heater Capacity:	3,000 watt
Thermal Control:	0-750°F (0-400°C)
Net Weight:	450 Lbs (204 Kg)
Gross Weight:	540 Lbs (244 Kg)
Dimensions (L x W x H):	26 x 23 x 36 inch (660 x 580 x 910 mm)
Container Size (L x W x H):	32 x 30 x 39 inch (810 x 760 x 1000 mm)

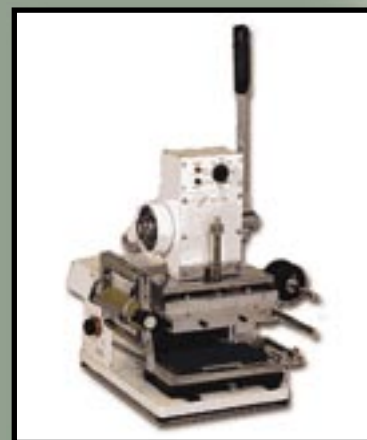

TC-180

Operating Specifications

\$1,980.⁰⁰

Hot Plate Size:	4 x 7 inch (100 x 180 mm)
Work Table Size:	5 x 8 inch (125 x 205 mm)
Maximum Pressure:	Manual
Maximum Head Stroke:	0 - 2 inch (0 - 50 mm)
Maximum Opening (Flat):	2 inch (50 mm)
Supply Voltage:	110 volt Single Phase - 15 amps
Foil Controller:	Mechanism
Thermal Control:	0-570°F (0-300°C)
Net Weight:	42 Lbs (19 Kg)
Gross Weight:	48.5 Lbs (22 Kg)
Dimensions (L x W x H):	13.5 x 13.5 x 15 inch (340 x 350 x 380 mm)
Container Size (L x W x H):	14 x 19.5 x 22 inch (360 x 380 x 430 mm)
