

You Have the Right to Use the Supplies of Your Choice

US Congress Passed New Legislation in 2002

The Original Equipment Manufacturer (O.E.M) cannot void your printer warranty for using non-OEM cartridges. The brand of supplies you purchase is your decision. You are not required by any machine manufacturer's warranty to use only its brand. In fact, there are laws preventing manufacturer's from doing just that - please take a moment to read this.

Magnuson-Moss Warranty Improvement Act

United States Code Annotated - Title 15 Commerce and Trade - Chapter 50 Consumer Product Warranties 15 Section 2302

“(c)No warrantor of a consumer product may condition his written or implied warranty of such product on a consumer's using, in connection with such product, any article or service (other than article or service provided without charge under terms of the warranty) which is identified by brand, trade or corporate name; except that prohibition of this subsection may be waived by the commission if:

- 1) Warrantor satisfies the Commission that warranted product will function properly only if the article or service so identified is used in connection with warranted product, and
- 2) Commission finds that such a waiver is in public's interest.”

This means that the manufacturer of your printer cannot void your printer's warranty because you use a cartridge or refill kit manufactured by someone other than the printer manufacturer. This prohibition includes use of compatible cartridges, clip-ons, continuous feeding mechanisms, refill kits, ink, etc.

Protect your right to use the supplies vendor of your choice

DyeStar ink Discover DyeStar Inkjet Ink, a dye based ink developed for the production of high density film negatives and positives. DyeStar Ink can be used with Epson Photo Stylus Inkjet printer. By using DyeStar Ink in conjunction with the Star-RIP and InkStar film from Nova, you'll be able to easily and efficiently produce all you film needs in-house!
